CARE AND MAINTENANCE

All chairs and table frames should be washed with a mild soap and water solution. Rinse with clean water and dry with a soft towel. Do not use bleach or strong solvents to clean patio furniture. To maintain and protect the furniture, always cover it with an outdoor furniture cover or store in a safe area when not in use for long periods of time. Caution should be used when using oils, lotions and other chemicals such as chlorine or repeated exposure to extreme weather conditions (including heat), which may cause permanent discoloration to the fabric. Cushions should be taken in and stored in a dry area during rain. Should cushions get wet, please hang over chair frame to drip dry completely before using and storing. In areas where heavy snowfall occurs, do not allow snow to build-up on the table top, as breakage may occur due to weight limitations being exceeded.
